Preparing Your Presentation

If your presentation contains video, you must embed the video within your PowerPoint. Follow these simple steps on the next pages.

PowerPoint 2010 - Embedding your video.

Note: If the “Optimize Media Compatibility” option does not display, then your media is already optimized.

1. Click on the File Tab.

2. Click on Info.

3. Click on Optimize Compatibility.

The screenshot displays the Microsoft PowerPoint 2010 interface. The 'File' tab is selected in the ribbon, and the 'Info' tab is selected in the task pane. The 'Optimize Media Compatibility' section is highlighted with a red box. The 'Info' tab is also highlighted with a red box. The 'Optimize Media Compatibility' section is highlighted with a red box. The 'Optimize Media Compatibility' section is highlighted with a red box.
